DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 13 and 14, drawn to a friction welded joint structure.

Group II, Claim(s) 15-19, drawn to friction welded shaft and hub combination

Group III, claim(s) 20-24, drawn to a friction welding method.

,

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the shared features of joining a shaft to a connection flange of a hub by providing a gap in front of and behind a joint site between a shaft and connection flange of a hub is either obvious over or anticipated by DE 19934855 C or DE 29905633 accordingly, the special technical feature linking the three inventions, providing a gap in front of and behind a joint site between a shaft and connection flange of a hub, does not provide a

contribution over the prior art, and no single general concept exits. Therefore, restriction is appropriate.

 A telephone call was made to Attorney Simon Steiner on 08/27/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL ABOAGYE whose telephone number is (571)272-8165. The examiner can normally be reached on Mon - Fri 8:30am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jessica Ward can be reached on 571-272-1223. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
